Dear my Donor
Praise the Lord and glory to God. Many greetings I return to you. And many thanks I return to our God for all goods which we have seen in our life and for all goods which he continue to give us. So we praise to him.

The aim of this letter is for greetings and many thanks for you for your donor which occurred to me and for all which will continue to my life. So I thanks to the God because ^{you} are the children of him when he continue to perform goods in our life I think it is okay to help others so your heart is so well then I continue to pray for our Lord in order to help you in your life for all things which you do I think you have seen which was came with you and you will continue to see many glory from Jesus. But we knew that the cross of Jesus and all bitterness which he got is for us. Our sinner is already kindly from his son. So all the world have been accepted by him because our sinner is already forgiven. But what I want to emphasize you all your daily life can you remember me whenever in our life. But for my side I will remember you forever and I think our father in heaven also he will remember you and your family again and again.

But I want to explain the history of my life. In order you to know me well that my trouble is okay

By beginning with birth :- I was born in 1992 at Ulembo village. Our father was three wives and four (4) children, but my mother the first wife to our father, from our mother we were two (2) children me and my sister Jurahini. The second wife was one child and the last also was one child. So we were four children (4) three girls and one son some I was the last.

furthermore when I was six years old my father was died and also after one year my mother was died again. So they remain two mothers who continue to live but for many trouble especially her health is not okay.

more off when our parents died me and my sister Jurahini we were taken by the grandmother to the side of our mother under three (3) uncle who gave support to grandmother. But when my sister finished her standard seven our uncle was taken for studied. But after two years our aunt the wife of uncle was died. Then after one year my Uncle again was died.

In addition after being died all the life was so difficult and the hardness of life and the harm was engaged to us. So many thanks to you again for your supporter to my sister but after two (2) years again she was died. So for this time there is two uncle who have poverty who havent money but which he tried to find all things is enough to his children only.

Not only that but also another people in our job is there but she/he have many children so they havent money to my side to help in my lessons. They havent anyway to do because they are not employed by any work for long time but Agriculture is the things which help them.

Another thing is that for this time I want to continue well my lessons in order to win the life of next year. But, if god wishes I want to be a leader of my young sister and brother who remain but poverty and many trouble cause us to go against because then my grandmother was already died in 2006.

On top of that many thanks to you because when I was finished standard seven you were the one and the common donor to me. I continue to pray to our Lord in order to help us further more in my condition it was well then I want to have courage, generally my I see your ability for my life again and again because I haven't any people who have a chance to help me. And hence I thank you for all things which will continue to me especially school fees and others which is very important to my life.

Also another thing in October I will finish my form four Examination so welcome in my graduation but the date I do not I will tell you. So that at the end of studies no I want to continue so please may you have a chance I will thank you for all which will occur to me. Thanks yours Charles
Rehema Charles, may you read Hebrew 4:14
